

# SupplyLink

## INDUSTRIAL TOUCH SCREEN CONTROLLER

SupplyLink® is a rugged, easy-to-use, industrial grade touch screen controller that operates SupplyPro® devices. Its industrial design enables reliable operation, assured durability and provides superior protection of the display and electronics.

### Industrial Grade Design

Built from rugged components to deliver reliability, performance, and versatility. Designed for harsh environments.

### Fan-less Operation

High-performance, energy-saving, fan-less operation for reliability and use in dusty, industrial environments.

### Dust-Proof, Shock / Vibration Proof

Certified to meet dust, shock and vibration requirements.

### Extreme Temperature Operation

Designed to operate at temperatures 0 – 50° C or 32 to 122°

## FEATURES AND SPECIFICATIONS

<b>Construction</b>	Slim and compact design with Al-Mg housing
<b>Display</b>	15" XGA (1024 x 768) Color TFT LED touchscreen monitor
<b>Keyboard</b>	Compact, Full-Featured Keyboard, 10-key numeric keypad, 20 function keys
<b>CPU &amp; Core Logic</b>	Intel® quad-core Atom™ E3845
<b>Touch Sensor</b>	Analog Resistive 5-wire
<b>Operating System</b>	Windows 10
<b>BIOS</b>	Award 256K
<b>Cooling</b>	Fan-less cooling system
<b>Certification</b>	Meets IP-22 standards for industrial environments
<b>Device Support</b>	Prox, mag-stripe, bar-code, hand-held scanner
<b>Languages</b>	Multiple
<b>Mounting</b>	Standalone or mounts to top of cabinet
<b>Environment</b>	Wide temperature 0 – 50° C and input power range of 100-250 Vac 50-60Hz

## APPLICATIONS

Can be used with SmartDrawer®, SupplyScale® or SupplyPro VIM™ to drive one or multiple devices.

## WARRANTY

1-year warranty
