

The SupplyPro Core Series for Gloves / Hand Protection

Gloves are a unique protection staple in all manufacturing environments -- almost everyone needs them -- and until now companies have had to make gloves available for workers at any time with little or no controls around the inventory or visibility into its true usage volumes. As a result, expenditures for gloves are out of control. SupplyPro's Core Series for Gloves gives workers the proper gloves they need, even giving access to ONLY the gloves required for their job, while providing the inventory control that management requires.

A Major Auto Manufacturer Saves Close to \$1 Million Per Year by Controlling Gloves with SupplyBay Plus

SupplyBay Plus - CoreBay Glove/Hand Protection

Performance engineered for harsh, industrial environments, SupplyBay Plus delivers reliable dispenses year-after-year. Designed to handle high-volume throughput and provide trouble-free dispensing for a wide range of industrial PPE materials including various types and sizes of gloves for workers.

The Advantages of SupplyBay Plus:

- Adjustable trays and dividers
- Configurable tray heights
- Large variety of risers, spacers and dispense aids
- Dual motor helix options
- Clear front option
- Heavy-duty weight capacity

CoreBay Glove Series Options

This series is available with either a key-pad (Version 1) or SupplyLink module (Version 2) for driving the device. You decide which option is right for your facility depending on its environment. Both versions communicate with SupplyPort for data management and reporting.

SupplyBay Plus - CoreBay Glove Series Options	CoreBay Gloves 1	CoreBay Gloves 2
Key Pad with Card Reader	1	0
SupplyLink Controller with Card Reader	0	1
SupplyBay Plus	1	1
