

SupplyAgent

High Density Door-Level Control

SupplyAgent

Controlled Access to Wide Variety of Materials

SupplyAgent provides door-level control and quick access to a wide range of materials and supplies. Easy to use and manage, the SupplyAgent stores a high volume of materials in a small footprint.

SupplyAgent's versatility and high SKU density make it an excellent choice for general plant applications such as:

- Personal protection equipment
- Specialized clothing
- General supplies
- Abrasives
- Maintenance items
- Paint shop supplies
- Office supplies

Fail Safe Technology

- Secure transaction capture in the event of an Internet failure using "store forward" technology
- Items selected in error can be easily returned
- Servers hosted by AT&T at their regional operations center
- Plug and Go technology!

Plug and Go!

SupplyAgent is easy to implement and easier to expand into a multiple unit system with a larger amount of material available at the Point-of-Use. It's not just a machine for dispensing, with SupplyPro you also get SupplyPort, the industry's leading data management backbone, and our full staffing for implementation and on-call support services. Find out more today!
