

Plug and Go Technology

SupplyPro Solutions - Easy to Install – Easier to Use

Plug and Go to Savings and Accountability with SupplyPro Point-of-Use Dispensing

It's simple to get started with SupplyPro's Point-of-Use solutions. We take the complexity out of materials distribution and provide you with savings, full accountability and fast ROI by simply plugging in our solution.

You don't need to become a vending or software expert, we've got this covered for you.

When you work with SupplyPro our team will:

- Analyze your dispensing needs
- Make a system recommendation
- Upload the inventory data
- Map integration to any existing ERP/Supply Chain systems
- Install and test the unit(s)
- Train employees for use and administration
- Set up reporting and alerts
- Analyze results and make recommendations for further improvements
- Provide on-going support and automatic software upgrades

All of this occurs while you concentrate on business activities where you are an expert. When the system is installed, employees just swipe their badge, choose their item and go back to work.

What could be easier than leaving the dispensing to us?

- Easy to install and use
- Simple to administer
- Stand-alone or mix-match solutions
- Leading data management backbone
- Full staffing for implementation
- On-call support
