SupplyScanner

Wireless Management of Key Assets and Supplies in Open Bin and Storeroom Environments

The SupplyScanner delivers a scalable solution to expand the range and coverage of your Point-of-Use (POU) inventory management needs while wirelessly accounting for all your activity.

Benefits of SupplyScanner:

- Consolidate POU and storeroom-based inventory into a single database
- Leverage POU investment to capture storeroom transactions
- Improve accountability by allocating costs to where supplies are being used
- 24/7 automatically scheduled reporting
- Share collaborative data with partners, supplier and internal departments – on-demand or schedule-based

Plug and Go!

Easy to implement, the SupplyScanner can be a stand-alone device or combined with other SupplyPro devices for tailored dispensing solution. It's not just a device for scanning, with SupplyPro you also get SupplyPort, the industry's leading data management backbone, and our full staffing for implementation and on-call support services.
