SupplyPro Unveils New Material Control Options – the SupplyLocker EXT Series and Updated SupplyBay 3.0

Adding Cost Effective SupplyPro Material Control has Never Been Easier

SAN DIEGO – April 4, 2011 – SupplyPro, the premier provider of Point-of-Use (POU) inventory management solutions, today announced new material management additions to its suite of solutions – the new SupplyLocker EXT Series and updated SupplyBay 3.0. These devices provide a new low cost solution for customers who have increased requirements to control, manage and automate distributed inventory on the shop floor. The solution includes SupplyPort, the industries' leading web-based POU management system, with full material control, business rules, reporting and tracking.

SupplyLocker EXT Series – Add Locker Control at the Right Price

The SupplyLocker EXT Series extends material control beyond consumables. This industrial locker manages tools, manufacturing and safety supplies and other assets. With an 8-door unit for controlling larger items and 16-door unit for medium-sized items, customers can choose the configuration that best fits their needs. The EXT Series is the perfect add-on to existing SupplyPro systems and features LED lighting, Lexan clear doors and advanced control capabilities including tool and gage calibration, certification standards, lock-down requirements, loan periods, quantity limits, tool rotation and much more. The SupplyLocker EXT series is paired with a SupplyBay with keypad and requires no additional application and support fees.

SupplyBay 3.0 – Absolute Control with the Industry's Best ROI

A core solution for SupplyPro, the updated SupplyBay 3.0 provides the industry's best return on investment for Absolute Control® dispensing of high volume materials like gloves, cutting tools, batteries, abrasives, etc. SupplyBay provides reliable dispensing time-after-time with new features including wrap around LED lighting and swing-arm controller for easy refill all at a lower price making SupplyBay the best vending investment for absolute control of high use and common materials.

“SupplyPro continues to provide innovative solutions for our customers,” said David J. Simbari, President and CEO, SupplyPro, Inc. “The SupplyLocker EXT Series brings locker-style control to new facility areas at a low-cost with a rapid implementation. Our patented take and return functionality potentially reduces tool loss to zero generating immediate savings. The SupplyBay is our workhorse. We flawlessly dispense millions of items every year in SupplyBays around the world. The latest updates bring even more ease of use features at a very attractive price.”

The SupplyLocker EXT Series and SupplyBay 3.0 are available immediately.
