

SupplyLocker

**PRODUCT-LEVEL CONTROL
FOR CONSUMABLES,
RETURNABLE MATERIALS
AND ASSETS**

SupplyLocker® is the industrial solution to manage consumable and returnable tools, supplies and other assets. Its custom design lets you configure each system to meet your facility requirements. When you automate the management of critical assets with SupplyLocker, you'll benefit from real-time check-in, check-out visibility and tracking for improved visibility and reduced waste.

SUPPLYLOCKER DELIVERS

- › Individual door control according to usage requirements, such as whether the item is returnable or not, loan periods for check-in/check-out, automated lock-down, employee access, etc.
- › Full usage audit trails — see item, who used it and where it was used
- › High capacity storage in a small footprint

FEATURES

- › Available as a Main or Auxiliary
- › Secure storage with capacity for 11-77 items per system
- › LED lighting for enhanced product visibility
- › Make equipment, including laptops and peripherals, available to specific users
- › Knock-out stamps located in back panel of each compartment can be knocked out to allow for power/network access behind locked door
- › Monitor calibration status and lock down tools by number of uses, number of days, due date — or any combination thereof
- › Automatically send notifications when tools require repair
- › Send alerts when equipment is unreturned or missing
- › Audit history by product and user

APPLICATIONS

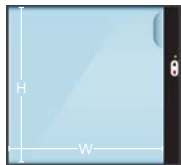

Laptops > Abrasives > Adhesives > Sealants > Gauges
Maintenance Supplies (MRO) > Welding Supplies > Security Items
Calibrated Instruments & Tools > Rechargeable Items > Meters
Personal Protective Equipment (PPE) > Instrumentation Devices & more!

Install the new SupplyLocker as a standalone Main or as an Auxiliary with other SupplyPro devices with the exception of SupplySystem®.

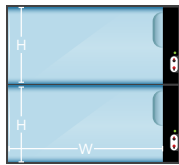

Three SupplyPro Auxiliary devices can be connected to one SupplyPro Main device. Auxiliaries can be all the same device or a mix of any allowed connected devices.
