SupplyScale

Using industry-leading weight-based sensing and patented SecureBin™ technologies, SupplyScale® delivers absolute accountability at the item level with amazing ease-of-use. SupplyScale quickly and accurately calculates the number of items taken, returned, or restocked, with no repackaging or tagging needed.

CUSTOM CONFIGURATIONS AVAILABLE

Our industry-leading weight-based sensing technology can be incorporated into SmartDrawer® solutions and our modular, reconfigurable SupplySystem® solution.

SUPPLYSCALE DELIVERS

Innovative Design

- Redesigned SmartController® with Universal Control Module electronics, universal badge reader and a 17" industrial touchscreen
- Intuitive menus and prompting mean minimal steps for set-up and load
- Eliminate individual item counting with rapid-refill

Improved Accountability

- Extremely accurate
- Locked covers on every bin to avoid cross-contamination

Outstanding Value

- Manage higher quantities of smaller items more cost effectively
- Lower cost of ownership than other options

FEATURES

- Inventory count automatically adjusted upon completed transaction
- Pick-to-Light functionality on all drawer and bin locations
- SecureBin technology provides lid locking management for every compartment
- Supports multiple lid and drawer depth configurations
- Minimal calibration maintenance
- Universal badge reader options: RFID, Fixed Barcode, Magstripe, Fingerprint, Wiegand, Handheld Barcode

APPLICATIONS

Fasteners • Fittings • Welding Supplies • Cutting Tools

Spare/Critical Parts • Electrical Connectors and Terminals

Sensors • Safety Equipment • Bearings • Abrasives

Switches • Tool Return Verification • Nuts, Bolts, Rivets

Consumables • Valves • Bin Stock • And many more!

Universal Control Module

Universal Badge Reader

Pick-to-Light technology and scale operating icons guide users
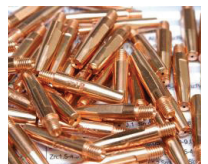

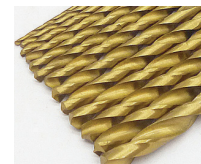

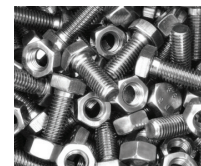

FLASHING RED ICON INDICATES SCALE IS READING

SOLID GREEN ICON INDICATES STABLE READ

RED ICON INDICATES UNSTABLE READING/ MOVEMENT

The scale module is a great solution for fasteners, fittings, tooling and welding supplies, and critical spare parts; it quickly and accurately calculates individual items or handfuls of inventory being taken or returned

SPECIFICATIONS

Choose the number of SupplyScale equipped drawers, drawer depths and the lid configuration that meets your needs. Customize each drawer with 2, 4, 8, 16 or 24 lids which come with SecureBin lid locking technology for every compartment.

──────── Dimensions are lid openings ────────

2 LID
20.44" H x 10.79" W

4 LID
9.49" H x 10.79" W

8 LID
9.50" H x 4.96" W

16 LID
4.02" H x 4.96" W

24 LID
2.21" H x 4.96" W

CAPACITY					
	2 LID	**4 LID**	**8 LID**	**16 LID**	**24 LID**
