

SUPPLYPRO[®]

**SUPPLYPRO INDUSTRY SOLUTIONS:
ORTHOPEDIC SURGERY**

HOW SUPPLYPRO HELPS
ORTHOPEDIC SURGEONS
KEEP THEIR PATIENTS UP
AND RUNNING

MANAGEMENT AND ACCESS TO SMALL, SPECIALTY SURGICAL PARTS IS CRITICAL TO ORTHOPEDIC SURGERY SUCCESS

In a surgical setting where seconds matter, ensuring immediate access to the right implantable hardware can directly affect patient outcomes. SupplyPro's SmartDrawer® and Single Box Dispenser® (SBD) solution brings industrial-grade precision, security and flexibility to orthopedic surgery rooms — dramatically improving surgical readiness, staff efficiency and replenishment reliability. All in an independent, vendor-neutral inventory control systems that can integrate seamlessly into every hospital environment.

- > In a recent leading orthopedic hospital deployment, 3,000+ parts/SKU's needed to be managed
- > Critical surgical orthopedic parts are high value, ranging from \$8 – \$2,500

SupplyPro's Single Box Dispenser cartridges are a key part of the solution for storing and managing small surgical parts.

“SUPPLYPRO SYSTEMS SHOULD BE IN EVERY HOSPITAL IN THE COUNTRY.”

SUPPLYPRO SMARTDRAWER

With Single Box Dispenser

THE RESULTS

TIME TO LOCATE PARTS
Minutes to seconds

ERRORS IN PART SELECTION
Significantly reduced

SYSTEM AVAILABILITY
24/7 traceable access

INVENTORY VISIBILITY
Always know what you've got

STOCK OUTS
Automated replenishment

PATIENT CARE CONTINUITY
Fewer delays or cancellations

THE CHALLENGE

Orthopedic hospitals typically store surgical hardware in unsecure cabinets with no automated capability to assist with location identification, quantity monitoring/inventory reporting or automated order management replenishment. This results in a loss in surgical productivity when searching for parts, parts not being available or retrieving the wrong size parts.

Previous inventory management solutions were not agnostic and forced hospitals to use vendor-specific orthopedic hardware only.

THE GOAL

Guarantee the availability, access and monitoring of critical surgical hardware.

In orthopedic surgeries, the ability to adjust surgical plans in real time often depends on immediate access to the right size or type of implantable hardware and guaranteeing the availability of that critical hardware during surgery is key to surgical success and patient outcomes.

- > Limit access and increase security of product in the cabinets
- > Manage the inventory of critical surgically implantable hardware
- > Quickly find and retrieve the right size/type of implantable hardware
- > Decrease errors by retrieving the right product the first time
- > Enable large storage capacity for 3,000+ SKU's
- > Automate reporting and parts replenishment
- > Remain vendor-independent utilizing an agnostic solution provider

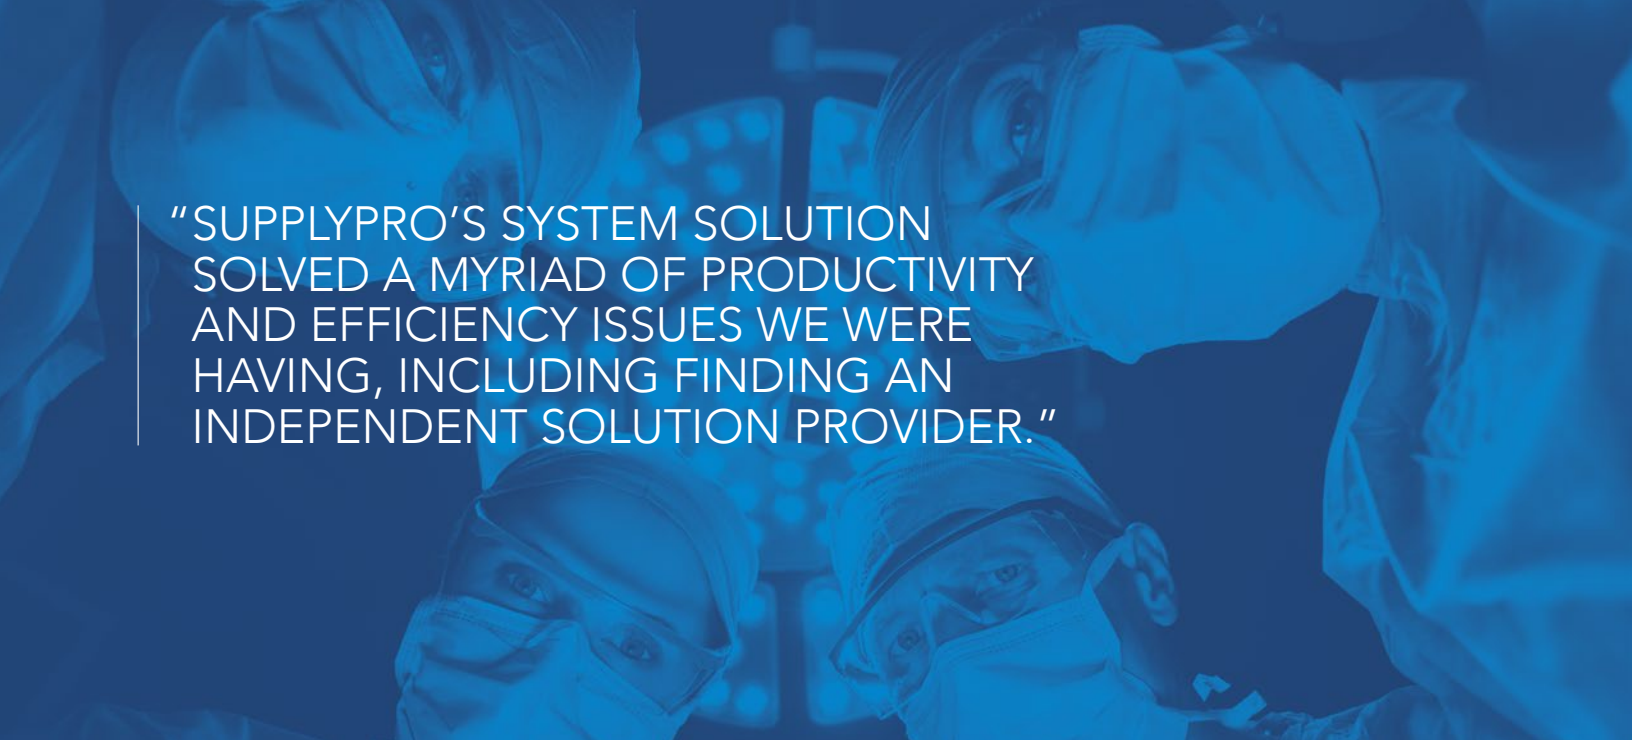

THE SOLUTION

SupplyPro's SmartDrawer system which includes the Single Box Dispenser (SBD) allows orthopedic surgeons to operate successfully without delays, improve operating team efficiencies and directly impact patient outcomes.

THE POWER OF INDEPENDENCE

Here are just a few of the benefits of working with an independent inventory management supplier:

- > Expanded choice of solution offerings to fit a wide range of products and applications
- > Impartial, customized solutions
- > Competitive product pricing

"SUPPLYPRO'S SYSTEM SOLUTION SOLVED A MYRIAD OF PRODUCTIVITY AND EFFICIENCY ISSUES WE WERE HAVING, INCLUDING FINDING AN INDEPENDENT SOLUTION PROVIDER."

ABOUT SUPPLYPRO, INC.

Headquartered in San Diego, California, SupplyPro provides the leading end-to-end inventory management platform, leveraging the most advanced big data analytics techniques to dramatically transform the industrial distribution and manufacturing industries. The SupplyPro platform combines the power and flexibility of cloud and mobile solutions with the industry's first modular, IoT-enabled smart inventory control system.

More than 1.5 million monthly users, from manufacturing environments to aircraft hangars and high-tech cleanrooms, rely on the SupplyPro platform to increase efficiencies, profitability, and competitiveness. SupplyPro has collected and analyzed inventory data from over a trillion transactions for more than two decades, giving the company the ability to deliver business intelligence and insights for inventory management that no one else can.
